Waiver of Shipping Insurance

Please sign and return this waiver declining shipping insurance on all items sent from Traditional Tool Repair, Inc. Without this waiver on file, your account will be billed for shipping including insurance for any package that leaves our facility. UPS gives \$100 insurance for every shipment, for any more insurance the cost is \$0.90 per \$100 extra insurance. EX: an extra \$1000 insurance = \$9.00 plus normal freight charges.

Traditional Tool Repair, Inc. is relieved of all liability for any items while in transit.

Freight Collect Shipments

Freight collect means that you, the customer, have your own shipping account with UPS that you want to use. Please note that if you select this option, we at Traditional Tool Repair, Inc. rely on your promise that UPS can bill your freight account directly. In the event your company does not pay the charges directly to UPS, our account will be charged back with fees. In this event Traditional Tool Repair, Inc. will automatically bill your credit card or house account for said charges plus a \$7.50 processing fee. By signing this agreement, you (the customer) authorize Traditional Tool Repair, Inc. to use the UPS account number you provide for your shipments and agree to the above terms.

Third party shipments

Due to continuous fee increases from UPS, Traditional Tool Repair, Inc. is no longer accepting any "third party shipments." Traditional Tool Repair, Inc. now requires you to ship pre-paid or UPS collect, with a verifiable account/address combination. We apologize for any inconvenience's this may cause.
